"BONNIE PRINCE CHARLIE"

It is doubtful if in all Scottish history two characters have been surrounded with more abiding remembrance than Bonnie Prince Charlie and Flora Macdonald—the young chieftain who came to reign the throne of the Stuarts, and the comely highland lass who managed his escape after defeat.

Incidents in the adventure of 1745 form the basis of the new offering of the Scottish Players, who made such a favorable impression in Coleman last season. "Bonnie Prince Charlie" will be presented here at the Community Hall, Tuesday evening, December 4th.

To regain the crown of his ancestors was the dream of his youth, and became the daring and romantic effort of the early manhood of Prince Charles Edward Stuart. In the 26th year of his age, he landed in the Western Highlands of Scotland, with but seven companions, utterly unprepared for his hazardous adventure. By his amiable manners, captivating address and attractive appearance, he soon enlisted the feelings and services of many of the clans, while others remained aloof. With the followers devoted and brave, Prince Charles took possession of Scotland, penetrated England as far as Derby, and caused King George to tremble on his throne. For various reasons, he determined to retreat to the highlands and the west.

From that moment the prospects of the Prince began to look gloomy. His bright star began to wane, until on the 16th of April, 1746, it was completely extinguished on the bloody moor of Culloden. Then followed five months of fugitive wanderings in mountain fastnesses, in caves and in huts, with a price of £30,000 upon his head; yet not one was found to betray his Prince.

It was Flora Macdonald, at peril to herself and her folk who aided his escape by disguising the prince as an Irish spinning maid.

In this presentation, no attempt has been made to follow the fortunes of Prince Charles other than from solid incidents, and into which has been interwoven many of the stirring Jacobite songs and the haunting highland melodies.

Included in the cast are: Mary McMahon, soprano, who appears as Jessie Cameron and Flora Macdonald; Randolph Salmon, tenor, as Prince Charles; T. McAllister Wallace, baritone, as James Cameron; Douglas Gordon, baritone, as Donald Cameron; Edith McGregor, contralto, as Lady Macdonald; and William Wilson, tenor, as "Andy," a servant. And F. E. Smythe as Donald Fraser, also, of course, clover Florence Reed, who looks after the incidental music.

These Scottish plays as presented by this clever group of Scottish players are not only for those of Scottish descent and interests, but for all who appreciate the pure art of folk drama portrayed by gifted professional artists, who interpret in these plays the spirit of the simple home life and people, immortalized in literature by Robert Burns and Ian MacLaren.

KNEPP — SMITH

The marriage of Freda Maude, daughter of Rev. and Mrs. J. W. Smith, of Edmonton, formerly of Blairmore, and Mr. Paul Henry Knepp, took place on Thursday at Edmonton.

It had a lovely setting in the Highlands United church, which was beautifully decorated for the occasion in bronze and yellow chrysanthemums.

At the service, which took place at 8:30 p.m., the bride's father, Rev. J. W. Smith, minister in charge, and Rev. Harrison Villet, of McDougall church, formerly of Pincher Creek, were the officiating clergymen.

The bride was charming in her wedding dress of white velvet fashioned on slender lines. Her veil, which hung in filmy folds over the dress to form a train of court length, was held in place about her head with a strand of brilliants. Her slippers were white satin and she carried an armful of pink roses.

The two bridesmaids, Miss Juno Smith, a sister of the bride, and Miss Irene Souther, were frocked alike in periwinkle blue moss crepe. They wore silver hats and silver slippers and carried nosegays of pink and white chrysanthemums.

Mr. Jack Humphries was the best man and the ushers were Mr. John Bond and Mr. Bruce MacLeod.

The reception at the Highlands manse was a delightful one, attended by more than 60 guests.

Following a honeymoon at Portland, Oregon, Mr. and Mrs. Knepp will reside at Edmonton.

A sitting of the district court was held here on Tuesday, with Judge McDonald presiding. Solicitors P. F. Barnes, J. W. McDonald, J. E. Gillis and S. G. Bannan were in attendance.

The Crow's Nest Pass Hockey League during the 1934-35 season will include Blairmore, Macleod, Coleman, Blairmore and Bellevue, which will be at the annual meeting held at Macleod on Saturday night. The league will be classed as an intermediate circuit.

The annual general meeting of the shareholders and directors of the Blairmore Arena Company Limited will be held at the Greenhill hotel tonight at 8 o'clock. One item of business to be considered will be the town's proposal to waive taxes and possibly take over the property.

T. M. Burnett left Lethbridge on Tuesday for the east, and will sail for England, where he will visit his sister, Mrs. E. Burnett Hammond. He will later make a trip around the world, accompanied by his niece, Misses Edith, Hilda and Lois Hammond.

In Bellevue items in our last issue, mention was made of an Armistice dance being held under the auspices of the Women's Auxiliary. As the Red element had no connection with this event, we might state that the affair was held by the Ladies' Auxiliary of the Canadian Legion of the B.E.S.L., Branch 19, Bellevue.

The mass buying commission should go the very limit, even to the extent of enquiring into discrepancies in printing prices. One instance was brought to our attention this week, where an Alberta concern quoted prices on printing such as could not be quoted anywhere in the world and permit paying a decent wage to a laborer.

Stafford Wilson, son of W. R. Wilson, of Fernie, was instantly killed on Saturday night when a car in which he was travelling to Elko went off the bridge at Lizard Creek, a short distance west of Fernie. Robert Brown, of Crow's Nest, who was in the car with him, escaped with minor injuries. Mr. Wilson was 51 years of age and is survived by his father, four brothers, two sisters, a wife, daughter and two sons.

FESTIVAL COMMITTEE

MEMBERS TO MEET

A combined meeting of the financial and executive committees of Crow's Nest Pass Musical Festival is called for Monday, November 26th, in the Greenhill hotel, Blairmore.

The financial report covering the 1934 festival will be submitted by the secretary-treasurer, Mrs. J. H. Farmer, whose capable handling of the detailed arrangements of the festival elicited many favorable comments. At this meeting the date for the annual general meeting and election of officers for the 1935 festival will be decided on.

For several years Mr. L. L. Morgan filled the office of president, and at last annual meeting it was decided by the general committee to alternate the office of president between the various Pass towns, H. T. Halliwell, of Coleman, being elected for the 1934 festival. This year the office will be filled by Bellevue or Hillcrest.

Monday's meeting is announced for 8 p.m. sharp and all committee members are urged to be present on time so that the business may be completed as expeditiously as possible.

THE LIBERAL CANDIDATE

F. O. McKenna, named last week as Liberal candidate to contest the Macleod federal riding in the next Dominion general election, was born in Charlottetown, Prince Edward Island.

He studied law there with A. B. Warburton, former Liberal M.P. for Queen's, and, coming west in 1912, was admitted to the bar in Calgary. Then for six years he practised law at Leduc, moving to Bow Island later, where he continued practice of the profession until 1934.

In that year he moved to Pincher Creek, where he has since resided and carried on his practice. He is married and has one daughter.

Local Elks will observe their tenth anniversary in the Lodge hall on Monday night next, at which their wives and sweethearts are expected to be present.

Mr. and Mrs. C. H. Knepp, of Edmonton, stopped at the Greenhill hotel on Saturday night, enroute west on their honeymoon trip. Mrs. Knepp was formerly Miss Freda Smith, eldest daughter of Rev. J. W. and Mrs. Smith, of Highlands United church, Edmonton, formerly of Blairmore.

At a session of the Crow's Nest Chapter of the I.O.D.E., held at the home of Mrs. J. R. Warner last week, prizes were awarded to Misses Greta Cawsey and Rose Oliver, as having attained the highest marks in Grade 8. The successful pupils were congratulated by Mrs. Jack Patterson, the regent.

A small audience appeared at the depot on Sunday afternoon to bid farewell to Harvey Murphy, Communist-M.W.U. of C. organizer, off to Quebec. Harvey will find just as many down there who won't know what he's talking about, but the Frenchmen as a rule know what they're clapping their hands for.

"Red" Rorstrom is now in a position to repair watches and clocks and his work is guaranteed for one year. All work is priced in advance and the prices are very reasonable. We have had occasion to see some of "Red's" work and can safely say that he knows his "oniums" when it comes to this kind of repair work.—Stavely Advertiser.

At a recent meeting at Macleod, Hon. George Hoadley hinted that "such systems as Social Credit were not practical." He was of the opinion that the primary producer would "get it in the neck," as it is the primary producer who will have to pay. He stated that the system was wholly based on theory, and that it cannot be demonstrated absolutely.

FORMER BLAIRMORE LADY

PASSES IN LETHBRIDGE

Mrs. Mary Helen Campbell, wife of R. J. Campbell, C.P.R. conductor, died in a local hospital Tuesday, November 20, after a brief illness. Mrs. Campbell was born in Lethbridge, October 1, 1893, the daughter of Mr. and Mrs. James Boyd, who came here in 1880, and moved later to Frank and Blairmore, then to Cumberland, B.C., where they both died.

Mrs. Campbell is survived by her husband, two daughters, Norma and Patricia; three brothers, Joseph and Edward, of Cadomin, Alta., and William, of Cumberland, B.C.; two sisters, Annie, of Detroit, and Mrs. J. Harris, Victoria, B.C. An aunt, Mrs. H. Miron, lives in Lethbridge. Deceased was a member of the Lethbridge Old Times' Association.

The funeral will be held at Martin Brothers funeral home Friday at 2:30 p.m., Rev. J. M. Pritchard officiating.—Lethbridge Herald.

In her school days in Blairmore, deceased was popularly known as Mamie Boyd.

G. G. Coote, M.P., of Macleod constituency, is mentioned as a likely candidate from farm interests across the Dominion for membership on the board of directors of the new Bank of Canada.

At the annual convention of the U.F.A. of Macleod provincial riding, the following resolution was passed: "Resolved that this convention commends the action of the Hon. H. H. Stevens, in his efforts to expose conditions prevailing within large industrial and distributing organizations of Canada, and express our hope that he will continue his efforts to have these injustices exposed to the end that public opinion will demand that remedial measures be promptly instituted."

They were sitting round the fire swapping lies. "When I was in Montana," said one of them, "I saw a mountain lion come right up to the camp one day. It was a fierce beast, but with great presence of mind I threw a bucket of water in its face and it slunk away." "Boys," said a man sitting in a corner, "I can vouch for the truth of that story. A few minutes after that happened I was out with the other and down went one coming down the side of the hill. I met this lion and, as was my habit, the count. The lady suffered the loss of one molar and a cut lip.—Crow's Nest Chronicle.

At a meeting held at the Greenhill hotel on Wednesday night of last week, the Blairmore Bears' hockey club was reorganized for the season with the following officers: patrons, G. E. Cruickshank, M.L.A., L. L. Morgan, G. A. Viasse, J. A. Brisset and Mayor Knight; president, Sam McDowell; vice-president, W. H. Campbell; secretary-treasurer, J. V. McDougall; trainer, R. Jamieson; assistant trainer, J. Stella.

A number of women were out Halloweening on Wednesday night; they kept strictly within the law, although when three of them approached Constable Belshaw, and being dressed in men's attire, he evidently thought he was to be taken for a ride, and as one for the truth of that story. A few minutes after that happened I was out with the other and down went one coming down the side of the hill. I met this lion and, as was my habit, the count. The lady suffered the loss of one molar and a cut lip.—Crow's Nest Chronicle.

WORLD HAPPENINGS BRIEFLY TOLD

Lieutenant-Governor Herbert A. Bruce of Ontario has been elected to the board of the Dominion Bank.

Robert W. Babson, statistical expert, advocates a coalition government in the United States beginning in 1937.

The Soviet Union whose position as world's second largest pig iron producer recently was announced, contracted with Japan to sell 40,000 tons of this product.

"Give similar jurisdiction, namely monetary and customs control, British Columbia is in a better financial position than the Dominion of Canada," Premier T. D. Pattullo declared in a public address.

Prompt construction of two giant airships, an aircraft carrier and a "flying deck" cruiser unlike any other ship now afloat has been proposed privately to President Roosevelt's aviation commission.

Dr. A. L. McNabb, director of the Ontario health laboratories in Toronto, revealed he had succeeded in isolating tubercle bacilli, germs infecting a human being. He said he believed it was the first time such an isolation had been achieved in Canada.

Germany is dickering to induce the major powers to legalize her rearmament so she may re-enter the community of nations before a mutual assistance league is formed against her, French political commentators said.

The French Academy of Science awarded a prize of 3,500 francs to Irene Joliot-Curie, whose parents gave radium to the world, and Dr. Frederic Joliot, her husband, for the creation of new radioactive substances which they hope will substitute for radium in the treatment of human ills.

Indigestion, Gas

Mrs. Elizabeth Stewart of Hamilton, Ont., says: "I had indigestion and gas for so long that I was constantly sick. At times I had heartburn and second wind. I had frequent headaches. I tried all kinds of medicine but nothing helped. I discovered built up my system with the use of the stomach. I have had no stomach trouble in years. I suggest you try Dr. F. J. C. Stewart's Stomach, Buffalo, N. Y."

Smallest Wireless Set

Pencil Radio Sold To Provide Very Good Reception

The world's smallest wireless set has just been made in Chicago. It is a tuning coil wrapped round a pencil. The crystal detector is inserted in the metal eraser cap, to which is also attached the standing, phillips aerial. For use, the pencil radio is simply connected to a pair of earphones. It is said to provide surprisingly good reception, considering its size, and it picks up stations several hundred miles away.

The total number of live cattle exported to the British Isles in 1934 up to October 25 was 44,138, compared with 43,792 in the corresponding period of 1933.

Little Journeys In Science

BACTERIA

(By Gordon H. Guest, M.A.)

When the microscope was invented a new field of science known as bacteriology, was opened up. Bacteria is the name given to a large group of plant organisms of minute size. Some of these have a rod-like appearance, some are spherical, and some look like trailing bits of filament. The rod-like type are called bacilli, and it requires twenty-five thousand of them placed end to end to occupy one inch of space.

Bacteria reproduce by the division of their bodies, one rod or sphere changing with great rapidity into two. The bacilli which bring about the fermentation of hay, double their length and divides every half hour. Many kinds of bacteria are killed by light while others cannot withstand great extremes of heat and cold. A few varieties, however, exist in a dormant state at 222 degrees below zero. A temperature of 87 degrees above zero destroys most bacteria, but some are known to live in hot springs where the temperature is 104 degrees.

Because they are plants, bacteria have no stomachs, and so they cannot absorb undigested food. They therefore go into their food. When they have penetrated into the material which they are going to use for food, they give off chemicals which change the material into a form in which it can be absorbed. Thus bacteria bring about the decomposition of dead plants and animals. Slowly but surely the bacteria bring about complete decomposition of the dead matter into many compounds, including such important substances as carbon dioxide and ammonia. If it were not for this process of destruction all living things on the earth would soon perish, because the chemical waste which life depends upon would be locked up in dead plants and animals. Thus the chemical elements necessary to life are always travelling in a circle. Everything comes from the earth, returns to the earth, and is ready to start over again. If the circle is ever broken all life would stop. Bacteria play an important part in keeping this vital circle unbroken.

A Product Of Proved Merit

Vicks Va-tro-nol For Preventing Colds, Meets With Wonderful Success

Windsor, Ont.—An intensive newspaper advertising campaign introducing Vicks Va-tro-nol, the new aid in preventing colds, has just started in Western Canada. Introduced in Ontario last year, and in the United States two years before, Va-tro-nol immediately became immensely popular.

Newspapers were selected as the principal medium for the introduction of Va-tro-nol because of the excellent results they have produced for Vicks VapoRub, according to the announcement.

For many years VapoRub has been the world's most extensively used cold remedy—the family standby for treating colds in 68 countries. Vicks Va-tro-nol is the latest development of the tremendous VapoRub sales—over 26,000,000 jars last year—to honest constipating, backing a product of proved merit.

Similar international success is being achieved now by Vicks Va-tro-nol—companion to VapoRub in Vicks Plan for Better Control of Colds. Vicks Chemists and medical consultants developed the formula for Vicks Va-tro-nol after years of clinical research. It is especially designed for nose and throat, where most colds start.

Based on a new idea for preventing colds—by aiding Nature's own cold-fighting functions in the nose—Va-tro-nol is introduced as "the ideal companion to Vicks VapoRub, the modern external method of treating colds." Together with certain simple rules for health, these two preparations form Vicks Plan for Better Control of Colds. Records of thousands of clinical tests—conducted over a period of two years under medical supervision—indicate that Vicks Plan greatly reduces the number, duration and dangers of colds.

In accordance with the Vicks Company's policy for nearly 30 years, VapoRub and Va-tro-nol will be heavily advertised in newspapers throughout the season. They will also be backed by the distribution of thousands of samples through drug stores in the Dominion.

Since 1929, Vicks has steadily increased its advertising while other companies were drastically curtailing theirs or eliminating it entirely. And during these five turbulent years, sales of Vicks products have increased from 26,000,000 to over 65,000,000 packages annually, despite adverse business conditions.

John Cabot, discoverer of Newfoundland, was paid \$40 for his discovery.

SUNDAY SCHOOL LESSON

NOVEMBER 25

THE CHRISTIAN STEWARD

Golden text: "Well done, good and faithful servant, thou hast been faithful over a few things; I will set thee over many things; enter thou into the joy of thy Lord." Matthew 25:21.

Lesson: Matthew 25:14-30.

Devotional Reading: Malachi 3:7-12.

Explanations And Comments

The Charge to the Stewards, verses 14, 15.

Jesus was talking with his disciples about the Kingdom of Heaven, and he began an illuminating parable by saying that the situation was comparable to that of a man who, being able to go into another country, called his servants and delivered to them his goods. A man of means in the time of Christ on leaving home for a long period entrusted his servants to whom he could hand over the conduct of his affairs, the tillage of his land, and the use of his money in trading.

How the Stewardship Was Carried Out, verses 16-18. The servants who received five and two talents respectively lost no time in trading with them and doubling each his amount, but the man who received one talent hid it in the earth. It was a common practice in the East to bury money for safekeeping, but his master wanted increase as well as safety.

The Two Stewards Rewarded, verses 19-23. After a long time the master returned and the servants made their reports. "Well done, good and faithful servant," he said to the man who had doubled his five talents; "thou has been faithful over a few things; I will set thee over many things; enter thou into the joy of thy Lord." "Come and share your master's feast" is Moffatt's translation.

The One Steward Punished, verses 24-30. "Lord, I knew that thou art a hard austere, Lk. 19:21 man," said he who had received one talent, "reaping where thou didst not sow, and gathering where thou didst not scatter." He uses proverbial expressions to describe an unscrupulous grasping man. "It is all work and no pay," in his master's service, "his master takes all the increase and gives the laborer no share in the reward," he thus says, "And I was afraid," he continued, "and went away and hid thy talent in the earth; lo, thou hast thine own."

"Thou wicked and slothful servant!" exclaimed his master. "You call me hard. I call you a churl" (A. B. Bruce). "Out of thine own mouth will I judge thee," Lk. 19:22. "Thou knewest [didst thou] that I reap where I sowed not, and gather where I did not scatter; thou oughtest therefore to have put my money to the bankers, that at my coming I should have received back mine own with interest." Turning to the men who would carry out his will, he said: "Take ye away therefore the talent from him, and give it unto him that hath the ten talents." Then he gave voice to a general principle which hard and inexorable, is always true: "Unto every one that hath shall be given, and he shall have abundance; but from him that hath not, even that which he hath shall be taken away." No better interpretation of so seeming paradox in the last part of this statement could be found than the words of Aristotle: "He who hath this or that, makes no use of it, may not improperly be said to have it and not to have it."

Canadian Education Association

Officers And Directors Are Elected For The ensuing Year

Dr. George F. Rogers, Ontario director of education, was elected president of the Canadian Education Association for a two-year term. He succeeds H. H. Shaw, superintendent of education for Prince Edward Island.

The association elected honorary presidents, ministers of education for all the provinces of the Dominion. Other executive officers are: Vice-president, Dr. H. H. Munro, Nova Scotia superintendent of education; secretary-treasurer, W. J. Kerr of the Ontario department of education.

Directors elected include: Dr. B. J. Willis, British Columbia superintendent of education; J. F. McNally, Alberta supervisor of schools; Dr. J. H. McKenzie, Saskatchewan deputy minister of education.

Big Business For Barbers

Dilek Of Mussolini For Whiskers Results In Many Shaves In Italy

The beard had was approaching an abrupt end in Italy recently as a result of Il Duce's suddenly expressed dislike for such facial appendages. Business was booming for barbers as they have their whiskers shorn off.

It was all said to have started when Mussolini, who is always clean shaven told General Attilio Turuzzi, commander of the black shirt militia, that his beard was getting gray. "You are no longer a lion," he was reported to have told the general. "You are old, and your whiskers are getting gray. You had better have them off."

In the desert country, many animals never drink water. Their need for moisture is supplied by chemical action in their digestive tracts, which turns some of their starchy foods into water.

Tested Eczema Remedy

Is Prescription Of Doctor

Your skin trouble—whether it is eczema, acne, hives, dandruff, ringworm infection of pimples and blotches—will be positively benefited by D.D.D., because D.D.D. is a tried and tested Physician's Prescription. D.D.D. was developed originally for his own patients by Dr. D. D. Dennis. It is now manufactured by the makers of Campana's Italian Balm. In 35 years D.D.D. has brought clear, beautiful skin to millions. At drug stores. Trial size free. Guaranteed to give instant relief or money refunded.

Boiled or steamed fish comes out firm and solid, swimming in its own juice, when you cover it with CANAPAR Cookery Parchment. No fishy odor. No gummy steamer or saucapan to clean up afterwards. And how delicious vegetables are when cooked the CANAPAR way! You can boil three in one saucapan without the flavors mixing over a single burner. Save fuel. Eliminate odor in the house. Preserve the rich mineral salts. Cut down work. CANAPAR can be used over and over again. It won't absorb odors. Try it as a dish cloth—especially for glasses.

CHRISTMAS CAKE—Christmas dinner . . . a monster turkey, nuts, candied, papered cakes which come from the gaily colored Christmas crackers—and to bring to a conclusion the year's greatest feast—a Christmas Pudding and a Christmas Cake made from PURITY FLOUR. You'll appreciate the high quality, the absolute uniformity of PURITY FLOUR in the season of Christmas baking. It's best for all kinds of baking. All baking made with it is marked by a distinctive pleasing flavor, an even texture, good color and the other qualities which fill the housewife's heart with pride. Buy a bag today from your grocer, and keep only one brand of flour in your kitchen.

PURITY FLOUR
BEST FOR ALL YOUR BAKING

One Phone Serves Village

Fire Bell Gives Alarm Whenever Call Comes Through

To make the only telephone in a Derbyshire village of England efficient a fire bell has been installed outside the post office, home of the instrument. Whenever a call comes from the outside world the fire bell gives the alarm. At least half a dozen villagers rush to the phone and either take the call themselves or find the individual for whom it was intended. Every child in the village has been instructed how to use the telephone.

The Island Of Luzon

The year for distant lands was stronger than ever in the minds of several after hearing of the Island of Luzon from Rev. N. H. Paquette, recently returned from the Philippines. There, unemployment is unknown because nobody works hard. Houses can be built for \$3. There is no church collection and no prohibition. The reason for this is that missions keep up the church and nobody drinks, the minister said.

Chinese Farmers Lose Heavily

Losses to Chinese farmers and peasants occasioned by the prolonged drought and record heat wave of the past spring and summer are expected to exceed \$1,200,000,000, according to a report issued by the National Famine Relief Commission, based on reports received from the stricken districts.

Another Old Custom Gone

Turks Allow Windows In Women's Apartments To Be Uncovered

Another old Turkish custom is to go. This is the "kafes", literally meaning "cages", but actually applied to the close wooden lattices which cover the windows of the women's apartments in Turkish houses. Their object to conceal the women from the gaze of man. But the Constantinople authorities have decided that, like the veil, it must go. Reasons of hygiene are given, as it is stated that the wooden shutters kept out the light and air.

**TELL YOU HOW
TO COOK FISH
—with less work and no odor**

Boiled or steamed fish comes out firm and solid, swimming in its own juice, when you cover it with CANAPAR Cookery Parchment. No fishy odor. No gummy steamer or saucapan to clean up afterwards.

And how delicious vegetables are when cooked the CANAPAR way! You can boil three in one saucapan without the flavors mixing over a single burner. Save fuel. Eliminate odor in the house. Preserve the rich mineral salts. Cut down work.

CANAPAR can be used over and over again. It won't absorb odors. Try it as a dish cloth—especially for glasses.

A "RED" SCHOOL BOARD

An unprecedented thing has happened in the educational life of Canada. It is believed unprecedented in the educational life of this whole continent. A duly constituted Canadian school board has granted the children a holiday in observance of the anniversary of the Russian revolution. "Hail Lenin!" says the board in effect.

It happened at Blairmore, a town in Alberta. The school board, we read, as also the town council, consists of "left wing" Labor men. Nov. 7 was the seventeenth anniversary of the Russian revolution, and the school board, calling a special meeting, decided to mark the event by declaring the day a school holiday.

It is possible there will be an incipient stamping of feet across Canada. There may be "demands" about it, calls for vigorous action. Yet it looks like a local matter. The Alberta department of education may not be able to do anything about it even if it should want to. If the citizens of Blairmore want to elect school boards in sympathy with the Bolshevik uprising in Russia and the Russian system, that may be their own affair.

It might well be kept in mind that it is folly to try to legislate or bludgeon this or that opinion out of a man. If Blairmore, Alberta, has a "red" school board, we are not sure that anything can be done to make it of another color. Certain types of effort might change it, but it is doubtful if anything suggestive of force would.—Regina Leader-Post.

Blairmore school children had a holiday on November the 7th, in honor of the 17th anniversary of the Russian revolution. This is unique in Canada, but no authorities were exercised.—High River Times.

Most schools in Alberta were granted a holiday on November the 12th, on account of Armistice Day coming on Sunday. In Blairmore no such holiday was declared by the school board, they considered the Russian revolution of greater importance.

The Calgary Women's Conservative Association, the Municipal Chapter of the I.O.E. and several other prominent organizations with the welfare of Alberta at heart, have filed protest with the provincial department of education against the action of the Blairmore School Board in declaring a school holiday on the 17th anniversary of the Russian revolution.

Last week the Blairmore Enterprise was unable to supply copies of the paper to 43 new subscribers. The Enterprise has taken an anti-red stand in the past, and probably lost subscribers on this account. We wonder if the rapid increase in circulation comes as a reaction following the action of the school board in declaring the anniversary of the Russian revolution to be a school holiday.—Macleod Gazette.

Will men never learn that nothing is gained through industrial strife, or by warfare in any form, which could not have been obtained by the peaceable means of arbitration? Both industrial leaders and labor leaders might ponder the word "equity" in this connection. Webster defines it as: "equality of rights; the giving, or desiring to give to each man his due, according to reason, and the law of God to man." Is there any equity displayed in a strike or lockout? Are they according to reason? Is

the desire to give or to get? And what is this law of God? It is no other than the Golden Rule, expressed in various ways in the Bible from beginning to end: "Let there be no strife," "Love one another," "All ye are brethren." Men and management are partners in industry—they are not enemies. When disputes arise it is to the interest of both parties, as well as the public, to have them judged and settled without partiality. Therefore, let the Golden Rule in equity be the presiding judge.—Robert W. Shelmire, in Christian Science Monitor.

MY TOWN

"My town is the place where my home is founded; where my business is situated; where my vote is cast; where my children are educated; where my life is chiefly lived. It is the home spot for me. My town has a right to my civic loyalty. It supports me and I must support it. My town wants my citizenship, not partisanship; friendliness, not offensiveness; co-operation, not dissension; sympathy, not criticism; my intelligent support, not indifference. My town supplies me with law and order, trade, friends, education, morals, recreation and the rights of a freeborn citizen. I should believe in my town and work for it."

If everyone followed the above creed, the mail-order houses and bell-ringers would have a hard time.—Ex.

THE FASCIST WORKING MAN

Through the Fascist reform, labor as derived the following advantages: closed working hours, regular payment of wages, a comprehensive system of insurance and prohibition of lock-outs. From a moral standpoint Italian laborers now feel entirely protected from exploitation, both financial and political.

As a counterpart of these advantages, labor has lost the right to elect political representatives individually, and must accept syndical leaders appointed from above. These leaders exercise control rather than receive instructions from the members of the syndical organizations at whose head they have been placed. State control, which is materially useful but morally questionable, does not allow labor to express independent wishes and requirements, or to choose their historical course of action. On the one hand the Italian laborer therefore is gradually being lifted into the position of an employee and on the other is being made into a sort of soldier, belonging to the Fascist militia of labor. The final outcome of this two-fold reform can hardly be foreseen, and the future alone will show whether or not the Italian laborer has taken a step forward or has received a setback under the Black Shirt rule.

As now administered in Italy, the syndicate system allows reasonable factory discipline to be enforced without provoking strikes, while exploitation of the workman is guarded against by syndical officials who have no professional interest in industrial affairs.

Backed by his syndicate, the working man knows that he is today in a better position to advance rightful demands or legitimate grievances. A dispute about wages or conditions of employment and labor, which in many other countries generally leads to long discussions and eventually to a stoppage of work, in Fascist Italy referred at once by either party to the syndicate of workmen and the federation of employers. Every possible effort is made to solve the dispute rapidly, but, in any event, work in a factory is never interrupted. The state prevents it and severely punishes the transgressors of the law, whoever they may be.—Paul Cremona, in Christian Science Monitor.

Mr. and Mrs. G. Bamforth, of Hillcrest, wish to announce the engagement of their daughter, Elsie, to Mr. D. A. McKay, eldest son of Mr. and Mrs. D. O. McKay, of Bellevue, the marriage to take place early in December.

CANADIAN COAL FOR CANADA

What if Canada were to begin importing wheat for domestic consumption on a scale greater than her annual production? Not alone the Prairie Provinces, but the entire country would clamor against such an absurdity.

Yet a somewhat comparable situation exists—indeed has existed for a great many years—without causing more than a minor ripple on Canadian consciousness. The situation is simply this: Canada controls coal deposits approximately nearly one fifth of the world's visible supply; but for her own domestic needs she imports considerably more than her annual production.

This fantastic chapter in the "paradox of plenty" has been rationalized by its defenders. They explain that the bulk of Canada's population concentrates in the central provinces, whereas coal deposits are confined either to the far west or down in the Maritimes. It has thus been held that excessive transportation charges automatically remove Canadian coal from being a practical market commodity in the more populous domestic centres.

But records of coal imports for the first seven months of 1934 offer a most contradictory angle on the entire situation. Canada imported from Great Britain over 43 per cent of her anthracite requirements—a freight haul clear across the Atlantic, considerably farther than from Sydney, Nova Scotia, or from Alberta to Ontario points of destination. Canada, among the most successful of all exporting nations, apparently has failed to solve one of the most elementary market problems at home.

Fourteen per cent of the world's supply of coal is located in Alberta alone. The great black seams sprawl over many square miles, as if the land were fairly bursting with its stupendous riches. Yet the surface of these veins has scarcely been scratched. The great treasure house has disgorged but an absurdly minute fraction of its potential. All this despite the fact that Alberta asserts her coal can be placed in Ontario coal bins as cheap if not cheaper than any imported fuel of comparable quality.

The problem of direct relief will be acute this winter, despite the gratifying upswing of business. The taxpayer will continue to foot the bill, but with greater interest in seeing that his relief dollars are expended to maximum advantage. If coal could be brought in from Alberta as cheaply as imported fuels, the average taxpayer would certainly welcome its use for relief purposes. In other words, the relief dollar would not only fulfill its function in the municipality in which it was spent; it would add a token relief from Alberta all the way eastward, or from the Maritimes westward, as the case might be.

If Alberta coal, for example, were to be used in all public buildings as well as for direct-relief purposes, it would add a valuable industry overnight and would greatly improve our balance of trade. Unemployment would be drastically reduced throughout Canada and buying power would be increased to an immeasurable degree. The Canadian railroads (one

of which incurs a deficit to be met by the taxpayer instead of the stockholder) would be the chief beneficiaries. Every train of Alberta coal shipped to Ontario points would require thirty-two additional train crews for the round trip.

Canada has witnessed few spectacles so pitiful and courageous as the mighty exodus this summer of Saskatchewan homesteaders from the drought areas. Their burned-out farms abandoned, overshadowed by dire poverty and distress, faith blazed afresh as they faced northward to the promise of the bountiful harvest lands of the Peace River country. But what a tragic irony in the trail these "empire builders" took! Barring the doors of their covered wagons was a far greater empire than their fondest dreams had portrayed—an empire craving development, capable of sustaining their prosperity and the well-being of thousands like them—an empire comprised of one of the greatest and most accessible coal deposits on earth, together with one of the world's largest undeveloped oil fields. Is it a forgotten empire, or will it pour its wealth on our generation as it surely will on the next?—Liberty.

A friend of ours, writing from Edmonton, tells a story that might also be interesting. It runs this way: The present premier is so keen on having purity in all things that he has ordered all Scotch female help to stop wearing high heels, so that they would not roll their R's.

Prime Minister R. B. Bennett is ready to render first aid to the injured. Whether or not he expects fist fights in the next federal election campaign he has not said, but he has received a graduate diploma in first aid from the St. John Ambulance Association.—Red Deer Advocate.

An old flintlock rifle, bearing the date 1829 near the hammer, is buried through the trunk of an oak tree at Chehalis, Wash. It has been said that the rifle was placed in the fork of the young oak as a friendly gesture after peace had been made with the red men.

A Scotchman and a dozen friends had just finished dinner in a fashionable hotel when a waiter arrived with the bill. "Give it to me, I'll pay for it," came in loud tones from the Scotchman. The next day the following headline appeared in the local paper: "Scotchman Strangles Ventriloquist."

Have you put on those storm windows, chinked up the cellar, dug and assorted the glads and dahlias and planted the tulips and trimmed the paths and greased the garden tools and put the farm implements under cover and fixed up the stable and finished plowing and paid the taxes and insurance and the grocer and the newspaper? Then you're too good for this world.

Caller: "I would like to see the judge, please?"

Bernard: "I'm sorry, sir, but he is at dinner."

Caller: "But, my man, my errand is important!"

Bernard: "It can't be helped, sir. His Honor is at steak."

Bright Stories about Wine

SOME OTHER EXPERIMENTS "NOBLE IN PURPOSE"

● There were in those far-off days some heroic experimenters. The Greeks were denounced for adulterating wines, but to our modern tastes the unscrupulous Greeks would seem to have been innocent compared with the voluptuous Romans who sought by some startling means to get an additional kick out of their libations. It was not to deceive, but rather to stimulate the palate, that they used to add to their wines such strong ingredients as asafoetida, tar, pitch, bitumen, aloes, chalk, wormwood, pepper, spikenard, cypress, myrrh and poppies.

● Maybe some of these experiments were made toward the end of the feast and are comparable with modern and regrettable habits of pouring wine into the pockets of the unsuspecting guests. Boiled sea water was also supposed to improve the flavor of wine, and, if it did, our opinion of ancient wine is not enhanced.

● The ancients had another trick that is familiar enough. They let their wines freeze in winter and then drew their drinks from beneath the ice. Naturally they got a much greater percentage of unfreezable alcohol. They did not quite get the idea, for they sought to duplicate the winter thrills by packing their summer wines in snow.

● One of the oldest customs connected with wine drinking seems to have been established by the Romans, or, if not invented by them, at least by them raised to the level of a rite. We speak of toast-drinking. It was inevitable, we suppose, in the atmosphere of conviviality which is promoted by the drinking of wine that all the merry companions should wish long life and happiness to each other.

● This end might have been tersely attained if they had all raised a single glass and drunk to each other. But the Romans had other ideas. They were not in favor of any kind of brevity, where the vital matters of feasting and drinking were concerned. So they devised the custom, when drinking a toast, to take one drink for every letter in the name of the person they desired to honor.

● One can imagine that, in those days, our old friend Virgil was given his full title, and that, as Publius Virgilius Maro, he was the backbone of many a banquet. In justice to the Romans, we ought to say that they used very small glasses for toasting purposes.

TOLLING THE KNELL

In an exchange we noticed the following modern version of Gray's "Elegy":

"The curfew tolls the knell of parting day,

The line of cars winds swiftly o'er the lea,

Pedestrian plods his absent-minded way

And leaves the world quite unexpecting.

edley."

A new cloth, made of wool from foxes, and having an effect much the same as angora or brushed wool, has been made from the combs from foxes, processed by the McPherson Woolen Mills at Rocklin, upon by Mrs. Angus McDonald, of Pictou Island, and worn into cloth by a student at Mount Allison university.

This item is copied from a weekly paper published in Alberta: "On Hill 60 they have custodians around to see that nothing is carried away. To this place they ought to run excursions for those young men who consider that life is drab and monotonous and who hanker for a great liberating event, such as their fathers had." Of course, no reference was made to Blairmore.

In charge of a shipment of 351 Manitoba-bred mink, bound for the Old Country, Donald Ducharme, 16-year-old lad from Delta, Manitoba, left Winnipeg recently. Donald was born at The Pas, but his parents died when he was but a few years old. Some time ago he found his way to Delta, a short distance from Winnipeg, and got a job on a mink farm. He is now an expert at handling the valuable little animals.

Why BEER is so WHOLESOME

Consider the excellence and the beneficence of the ingredients of BEER . . . the finest barley-malt for digestion . . . hops for appetite . . . yeast for vitality . . . was there ever anything so down-right wholesome as this mild and heartening beverage . . .

MAN TESTIFIES UNDER OATH

Mr. Dagnieu, 122 St. George St., Chatham, Ont., wants others to benefit from his experience and in order that everyone may be convinced of its absolute truth he gave his statement under oath before a notary. Mr. Dagnieu states: "I was very badly run down. I suffered terribly from nervousness. I had gas and was irregular and my complexion was bad. I tried Fruit-A-Rives a short time and soon felt better. Now I am regular, have a good complexion and I am never nervous any more. Now I can do a full day's work without getting tired and keep Fruit-A-Rives in hand in case any of my family become constipated."

Copy of Mr. Dagnieu's sworn statement will be sent on request. Write Fruit-A-Rives Limited, Ottawa, Ontario.

We do not believe that there is a word of truth in the rumors current that Harvey Murphy was fawelled by the Blairmore town council to the extent of \$100, or that a substantial sum from ratepayers' money is to help defray expenses of Enoch Williams' or Tom Uphill's trip to Russia.

COWLEY HAPPENINGS

Mrs. Jack Douglas, of North Fork, who is on the ailing list, is now in Calgary, where she is receiving medical treatment.

Mrs. E. E. Hazel entertained the Cowley ladies' bridge club at her home on Tuesday night, when prizes were won by Mrs. Hazel and Mrs. M. A. Murphy, respectively.

Mrs. L. Christie is spending a few days in Calgary.

Mrs. D. M. McIsaac, of Calgary, paid a visit of a few days recently to her parents, Mr. and Mrs. F. A. Tustin.

On Friday night last, a dance, sponsored by the Cowley girls' recreation club, held in the Oddfellows' hall, was quite successful. After expenses were met, the neat sum of \$25 was added to the recreation fund.

A card party was held under the auspices of the Cowley girls' club on Friday night, when Mrs. George Porter lent her home for the occasion. Prizes were awarded to Mrs. Horning, Nelson Askew, Miss Edith Murphy and A. G. Swart. The proceeds from the drive will be added to the tennis club fund.

An enthusiastic Social Credit meeting was held in the L.O.O.F. hall on Wednesday night, when Mr. Hoyle, Mr. Snowden and Rev. Roy Taylor, of Coleman, were speakers, ably handling their subjects as they pointed out the benefits of the Social Credit system of the Douglas plan, now under the leadership of William Aberhart, as against the present day system. In spite of the fact that only short notice was given for the meeting, a large crowd of eager listeners attended.

BELLEVUE HAPPENINGS

Miss M. Graham, who was called to Calgary owing to the illness of her uncle, returned on Monday.

The Bellevue Junior choir, under the leadership of Mrs. Upton, journeyed to Coleman to assist at the morning service on Sunday last.

The annual bazaar, by the Ladies' Aid, held on Saturday, was a huge success, and the ladies wish to thank all who in any way helped.

Miss Kathleen Hoffman, who had been visiting here for the past two weeks, returned to Brockton on Sunday.

Mrs. A. Goodwin entertained a number of ladies at her home on Thursday evening.

The presentation of five fifteen-year jewels to veterans was made at a largely attended Rebekah district meeting held here on Wednesday evening of last week.

The dance held in the L.O.O.F. hall on Saturday night, and sponsored by the junior basketball team, was quite a successful event.

A number of local Oddfellows journeyed to Pincher Creek on Thursday evening, to attend a district convention.

Joseph Shevels, who for the past ten days has been confined to his

home, is able to be out and around again.

James Tutt was a visitor to Staveley on Sunday last.

MOUSTACHE EPIGRAPH

Over all dark colorings
Vaunted was your noble jet;

Exceptional price of downy things
Rivals none you knew, and yet,

Here you now sprawl listlessly,
In pieces everlastingly.

Sliced up most effectively.

Like the gushing of a fount,
And the cloud-cap of a mount,

Though you're coming gave us bliss,
Ended all in nothingness!

Mourns, then, our whole human race,
Over you and your disgrace—

Urban folk can ne'er again
Sight of matchless bristles gain;

Ticklings that enhance a kiss.
All the misses now must miss—

Cause at last you've come to this!
Hope of peace we have if you

End your death and sprout anew.

TEXT FOR THIS WEEK: Blessed is The Enterprise subscriber and advertiser, for he knoweth that The Enterprise records his witness of the achievements of its people and shall stand—yes, unto the coming generations as an inspiration to the boys and girls to continue in all things, to do their VERY BEST.

Here and There

What a practical newspaperman finds interesting on a cruise around the world in the Canadian Pacific flag ship Empress of Britain can be counted upon to capture the imagination of newspapermen. Last winter Alan Maurice Irwin, a Montreal writer, made the cruise. His new intriguing places, outstanding people and strange customs. So he sat down and wrote a book which is illustrated by photographs he made with his own camera, filled with amusing sidelights upon humanity. Now, under the comprehensive title "—and ships—and sailing was the book—on Macmillan's full list.

That United States investors' capital would flow into Canada in an even greater volume is the prediction of John R. Hastie, of the Mutual Life of New York office in Chicago, speaking before the Life Underwriters Association of Toronto, at the Royal York Hotel recently.

The cream of American baseball players is scheduled to sail from Vancouver October 20, aboard the Canadian Pacific liner Empress of Japan, for an all-star tour of Japan, China and the Philippines. Judge and Mrs. Kenesaw Mountain Landis may also be in the party.

Photographed in a group for the first time since they were "shot" on their arrival in Canada a few years ago, His Excellency the Governor-General, Her Excellency and their children and daughter were snapped on board the Empress of Britain just before Lady Bensonburgh and her son and daughter sailed for Europe recently.

Appropriation of one dollar was made recently by the Vancouver City Council as the nominal price for a purchase from the Canadian Pacific Railway of 1 1/2 acres of right-of-way property at Kilsillano Beach, near the British Columbia city.

The first McIntosh apples of the season for distribution throughout the Dominion from Victoria to Halifax went out recently over Canadian Pacific lines in trains of 45 cars. The fruit is reported to be in wonderful condition and this season's product will maintain the great reputation that British Columbia has won for its apples.

Under the Canadian Pacific five years' free scholarship fund to McGill University, Reside McWilliam, of Montreal; David R. W. Bell, of Winnipeg; and Albert Grant Apple, of Lethbridge, all sons of company employees, are announced as this year's winners. The scholarships are renewable every year up to five years, and the holders are entitled to full standing in the next higher year.

"There is very clear evidence of a return to prosperity in Canada due to a greater feeling of confidence," was a recent declaration of Lord Iliffe, owner of more British trade papers than any other publisher in the United Kingdom, interviewed aboard the Empress of Britain.

From every state of the Union and every province of the Dominion delegates to the 110th communication of the Supreme Grand Lodge of the Independent Order of Oddfellows assembled in convention at the Royal York Hotel, Toronto, recently. They were greeted by the Lieutenant-Governor of Ontario and the Mayor of Toronto.

Local and General Items

Charlie Adams, manager of the 1932 Drumheller touring footballers, has received an invitation to go overseas with his team in 1935. They are to meet the Scottish Junior Football Association.

The annual turkey supper at the United church last evening was as usual very largely attended and enjoyed. Through some unforeseen circumstance, the concert had to be postponed.

Sixty natives, participating in a beer-drinking party near East London, South Africa, were instantly killed when lightning struck the tent in which the party was held. There were sixty-four in the party.

Vatican statistics show that the Roman Catholics in the world total 392,724,000, as follows: Europe, 219,231,000; Asia, 20,550,000; Africa, 7,684,000; North and South America, 143,039,000; Oceania, 2,220,000.

Teacher had been giving a class of youngsters some idea of proverbs, and after the lesson she put some questions. "Birds of a feather do what, Peggy?" she demanded. "Lay eggs," piped Peggy, without hesitation.

A largely attended meeting of the Pass party of the Retail Merchants' Association was held in the Lodge hall yesterday afternoon, addressed by Mr. A. G. McKay, provincial secretary. Mr. R. W. Morgan, of Pincher Creek, acted as chairman.

Remembrance Day -- Its Memories And Lessons

The world has commemorated another anniversary of the signing of the Armistice, the sixteenth. Remembrance Day, as it has come to be known, was observed by hundreds of thousands of people in nations all over the world. From the pulpits of churches of all religious denominations Peace sermons were preached and the horrorfulness and brutality of war vividly depicted and unanimously condemned. Gathered at the graves of Unknown Warriors, assembled about cenotaphs and other monuments erected to the memory of the gallant dead, or meeting in solemn memorial services, men and women formed an almost unbroken circle around the world as they stood with bowed heads and in impressive silence as the hour of eleven o'clock struck.

It was Remembrance Day! People wore flaming red poppies symbolical of Flanders Fields and of the bright red blood of youth there shed. Reverently they laid wreaths of poppies in many hallowed spots. People heard the pipes and drums play "The Lament", the bugles sound "Last Post" and "Reveille", and they saw the Colors slowly dipped.

Pride and sorrow were interwoven and strangely mixed as the memories of those of the older generation were carried back to 1914-1918 and to the first Armistice Day,--pride that men, and women too, had responded to the call of duty when that call came; sorrow that so many had been called upon to make the supreme sacrifice and go through life maimed and handicapped to the end of their days. And mingling with pride and sorrow there was a righteous anger that such a barbarism as War should be permitted and sanctioned by peoples and nations styling themselves Christian and civilized.

But does Remembrance Day mean nothing more than this? Does it begin and end with the twenty-four hours of November 11, and are we then to lapse into forgetfulness for the remaining days of the year until once again November 11 calls upon us to stand in silence and remember?

Consider, you who are now reading these lines: Have the memories stirred only a few short days ago not already begun to fade? Is not that almost red hot righteous anger against War and all that War means which you felt so recently already cooling off? If your passionate demand for Peace, and that never again shall War blast its way in this world, as keen to-day as it was when you stood in a silence that could almost be felt just a few days ago? Alas, it must be so. Indeed it is well that in many respects our human memories are short, else we could not bear the burdens which memory would bring. But it is vitally important to the future of mankind that we should never forget all the tragedy that Remembrance Day brings to mind. So far as the awfulness and uselessness of War is concerned, every day should be Remembrance Day.

Canada is a peace-loving country. If the decision could be left to the Canadian people there would never be another war waged anywhere on this world's surface, nor upon its seas, nor in its air. Canada has always set the nations an example in disarmament; or rather by its refusal to engage in armaments. Our paltry permanent force and numerically small and widely scattered militia is but a domestic police force maintained to guarantee law and order. Of offensive armaments Canada possesses none.

But as a nation of Peace, Canada has a duty to the whole world. At Geneva the voice of Canada is always raised for Peace; in world conferences Canada's vote is always cast for Peace. But the responsibility is ours to make our voice for Peace stronger and still more emphatic in a world of nations apparently bent upon engaging in a race for war-like armaments unparalleled in all history.

Narrow nationalism, with all its selfishness, its suspicions, its jealousies and its animosities is the basic, the underlying cause of war. The truth of this statement is emphasized over and over again by the well known international correspondent, Isaac F. Marcossin, in an article entitled "Does Europe Want Disarmament?" Selfish nationalism wrecked the World Economic Conference and is bringing about tariff and currency readjustment, and because of that failure the whole world still staggers and suffers. Selfish nationalism has rendered every disarmament conference a failure. And because men still insist upon such narrow national selfishness, the nations are heading straight into another war.

Canada is not free of the taint of selfish nationalism, but it has not the grip on the people of this new and young land that it has upon the older countries of Europe and Asia. Nevertheless, if Canada's voice for World Peace is to be as strong and emphatic as it ought to be, the Canadian people must not only place a curb upon the growth of any spirit of selfish nationalism but we must seek to eradicate it from our individual minds and hearts and from the policies of this Canadian Dominion.

Let us remember and keep fresh the memories and lessons of Remembrance Day, about War and all that tends towards War, and think and plan and live for Peace at home and in the world.

A cynical young bachelor who has recently returned from his first visit to a certain health resort, says he has found out that a spa is a place where a woman goes to get rid of her rheumatism and her daughter.

It is never later than 6 o'clock in San Marino, a tiny republic in Italy, where the day is divided into quarters and no clock ever strikes more than six strokes.

Dominion Drama Festival

Brilliant British Playwright Pays Compliment To Canada.

Canada is fortunate in having the Dominion drama festival established on such a firm basis, in the opinion of Noel Coward, brilliant British playwright, composer and actor, who is paying his first visit to Canada.

The Drama festival, he believes, is a distinct contribution to the theatre in that it makes people "theatre-minded," and stirs up interest among the members of little theatre groups, their friends and associates in an ever-widening circle.

"It is most interesting," said Mr. Coward, in an interview at Ottawa, "I should like to attend a festival. If possible, I shall be here next spring."

Only 36 years old, Mr. Coward is one of the most successful living writers for the stage. He already has had 24 or 25 plays produced. Now he is on the way to Milwaukee to attend a rehearsal of his latest play, "Point Valain," which will open in Boston Christmas night.

INDIGESTION?

Then
Try KRUSCHEN
at NO EXPENSE

If you suffer from loss of appetite, indigestion, sour stomach or a miserable feeling after meals there's nothing like Kruschen for relief. The little daily dose of Kruschen first stimulates the flow of gastric juices to aid digestion, and then causes a complete, regular and lasting elimination of all waste matter every day.

If you suffer, you'll welcome the opportunity to try Kruschen Salts now positively free of charge Ask your druggist for the Kruschen Gift Box. This is the Regular bottle, together with a separate FREE TRIAL bottle. 'Tis the Trial bottle first. Then if you are not entirely convinced that Kruschen will do everything claimed for it, return the Regular package unopened to your druggist and he will redeem it at full value. But act quickly or your Free Trial Bottle will be gone. Your druggist has only a limited supply.

Nobel Literary Prize

Pirandello, Famous Italian Dramatist, Receives Award

Luigi Pirandello, famous Italian dramatist and novelist was awarded the Nobel literary prize. Selected from a host of American and European literary figures, Pirandello was given the famous award, which last year went to Ivan Bunin, Russian author, and which normally is worth about \$45,000.

Pirandello was born at Girgenti, Sicily, in 1867, and was educated at Rome and the University of Bonn. His present home is in Rome. His writings have been varied, including poetry, plays and prose.

His best known writings include: "As You Desire Me", "Six Characters in Search of an Author", "The Man With the Flower in His Mouth", "The Mock Emperor", "The Life I Gave You".

IT'S LIVER THAT MAKES YOU FEEL SO WRETCHED

Wake up your Liver

No Calomel necessary

For you to feel healthy and strong, your liver must pour two gallons of liquid bile into your bowels every day. Without that bile, trouble starts. Poor digestion, slow elimination, poisons in the body. General weakness. How can you expect to clear up a situation like this completely with mere laxatives, cathartics, oil, mineral water, laxative candy or any other drug, or perhaps? Try your liver.

Get your liver's Little Liver Pills. Purely vegetable, safe, quick and sure results. Ask for them by name. Refuse substitutes. 50¢ a dozen.

Almost As Dark

In a negro school near Deanville, Virginia, there was one boy so black that the other pupils called him "Midnight." This comes to us rather straight from a traveler who has just motored through that part of Virginia. It seems that this was all very well until a new pupil only a few shades lighter than "Midnight" entered school. On being called his nickname "Midnight" by the new pupil, the black one answered: "Listen here! Don't you call me no Midnight. You're half-bait 'tween 'em."

Car Accidents Increase

Automobile accidents in Ontario for the first nine months of 1934 were 9.2 per cent. above the same period last year with the death toll at 300. Hon. T. B. McQuestin, minister of highways, announced.

There would appear to be a serious shortage of alkalis for domestic needs in Canada next spring as the 1934 production, plus the small carry-over, is not expected to exceed more than one-half normal requirements.—Dominion Seed Branch.

CHOOSING YOUR SWEETHEART

BY HIS HANDWRITING

By LAWRENCE HIBBERT
(Grapho-Analyst)

(All Rights Reserved)

(Editor's Note: Many letters of appreciation have been received from readers who have accepted the author's offer of a personal analysis from their own handwriting. Have you sent yours? See the announcement following this article.)

The value of Grapho-Analysis is never more evident than when it is used to assist Cupid. For it tears aside the veil that love so often weaves, and reveals in unerring fashion, the characteristics of the writer.

It is not merely a question of honesty and straightforwardness—although these are points that have to be considered. The emotion and the degree of expressiveness of those emotions—these are of vital importance.

Take, for example, a girl who has a warm and ardent nature; who feels things very deeply, and who expresses that feeling. She likes to be loved and would be very unhappy without the affection of others. What chance of happiness would she have, married to a man who is cool and unemotional, who dislikes any manifestation of affection; and who is so governed by his mind that he has not a generous streak in his nature?

Only the other day, I received a very poignant letter from a girl of 24 years of age. She was married two years ago, but has never been happy, since the first rapture departed. She is of the type I mention above, and asks me why she is unhappy, and wonders whether she is responsible.

The writing of her husband, which she enclosed, shows that he has about as much feeling and affection as a stone. Here is a case where the advice of a Grapho-Analyst would have prevented much unhappiness.

There is an old saying that opposites make the happiest partners. This is fallacious. Look on every side of you, and you will find married people who are unhappy and discontented, because their natures are so unlike.

Marriage demands affinity of interests. It is too much to ask, or expect, that the average couple will have all the same interests, the same likes and dislikes—and there is a good deal of compromise necessary in most marriages.

But a young couple whose natures are the opposite ends of the pole are starting out with a tremendous handicap. And that it is too great a penalty to pay for the number of unsuccessful marriages.

M. H. Toronto.—By all means see your Grapho-Analyst. Yours truly, and in good case. Married four years ago, your husband left you three years ago. You never met a young man who loves you. He is a straightforward young man, and is trustworthy. He is a good husband for your husband. I am writing you direct regarding the personal matter.

Can the author help you? Can he show you what your friends are really like? A personal analysis may be very helpful to you. Send specimens of the writing you want analysed, and enclose a coin for each. Send with 3c stamped addressed envelope, to: Lawrence Hibbert, care of Winnipeg Newspaper Union, 170 McDermott Ave., Winnipeg, Man. Letters are, of course, confidential, and will be answered as soon as possible, but please allow about two weeks for your reply.

Recipes For This Week

(By Betty Barclay)

MARVEL LEMON PIE

1 package lemon-flavored gelatin
½ cup sugar
¼ teaspoon salt
1 tablespoon grated lemon rind
6 tablespoons lemon juice
1½ cups boiling water
- 2 egg yolks
1 baked 9-inch pie shell

Combine gelatin, sugar, salt, and lemon rind with 3 tablespoons water. Add egg yolks and stir well. Add remaining water, stirring until gelatin is dissolved. Cool. Add lemon juice. Chill. When slightly thickened, turn into cold pie shell. Chill until firm. Cover with whipped cream.

CELERY CROQUETTES

2½ cups celery cut fine
¼ cup milk
1½ tablespoons flour
1½ tablespoons butter
1 teaspoon sugar
1 egg yolk
Salt and pepper
Crumbs and egg

Cook the celery in boiling salted water to which has been added the sugar. Drain very thoroughly. Make a white sauce of the milk, flour and butter. Season with salt and pepper. Add the celery and the slightly beaten egg yolk to the sauce. Mix well. Spread on a plate to cool. Form into small croquettes. Dip in crumbs, egg and crumbs again. Fry in deep fat. Drain.

It takes surprisingly little to support a family of five, if you're doing it with a paper and pencil.

Business Improved

Conditions In General Throughout Canada On Uptrend

Conditions in general throughout Canada have improved considerably and gradually since the low point in the early spring of 1933, the executive council of the Canadian Manufacturers' Association reported, coincident with the official opening of the Produced-in-Canada exhibition in Montreal.

Figures the council believed encouraging were presented in regard to employment. For the 12-month period ended September, 1934, Canadian exports to empire countries represented over one-half of total exports to all other countries. The report adds: "For this 12-month period our exports to empire countries amounted to almost \$324,000,000 which is greater than our exports to empire countries in 1930 when they amounted to \$316,000,000."

"Our exports to foreign countries, however, for 1930 were no less than \$567,000,000 as compared with \$507,000,000 for the year ending September, 1934."

Will Have Representative

A representative of the Peace River district will be added to the western board of grain standards, it was promised by E. B. Ramsay, chairman of the board of grain commissioners.

Hogs graded in Canada for the first 43 weeks of 1934, ended October 25, numbered 2,373,094, a decrease of 172,459 on the corresponding period of 1933.

Katmai national park, Alaska is the site of the "Valley of Ten Thousand Smokes".

Asbestos Suit Stood Test

Man Entered Flaming Building And Left It Unscathed

A man recently walked through a fierce fire, and was unharmed. He was not even in danger of being burned. He was testing a new asbestos suit at Stoughton. He entered a flaming and smoke-filled building, recovered some heavy boxes, and left it unscathed. His fireproof suit consists of a main asbestos garment covering the body and limbs in the manner of a mechanic's jumper suit, heavy shoes and mittens, and a cylindrical mask with a long valance.

HOLDS FALSE TEETH TIGHT AS CEMENT

Please don't possibly slip when you sprinkle on Dr. Wernat's Powder. Largest seller in world—holds plates so tight they can't annoy any so comfortable they actually feel and set like your own. Reseal mouth salivary, breath pleasant—special comfort-cushion prevents soreness from getting sore. Mail out—any druggist.

League's Policy Negative

The League of Nations instead of being an instrument working for peace has become an institution attempting to prevent war, Edward Benes, Czech foreign minister, told the chamber of deputies when it reconvened at Praha. In a lengthy exposure of the European situation Benes emphasized the league was working along negative lines instead of having a definite positive policy such as it had in the days of Aristide Briand.

There are two sunsets at certain times of the year in the town of Leek, England. The sun disappears behind one flank of "cloud hill" and reappears beyond the other.

No more RECHARGING OF BATTERIES!

... how would you like a battery radio that will do everything that the finest electric set will do? That will bring you the clear, full tone of the finest electric set ever made, day after day without weakening... and banish forever the annoyance and expense of recharging batteries? Then—hear the new Air-Cell Radio—the wonder of the air!

Air-Cell Radios are built and designed specially by all set manufacturers to operate with the EVEREADY Air-Cell "A" battery—a marvelous new "A" battery that re-energizes itself for at least 1000 hours, which at 3 hours a day is almost a year's service in the average household.

But do not confuse the Air-Cell Radios built for the EVEREADY Air-Cell with any other battery set... Air-Cell Radios are entirely new from the ground up... with quality, convenience and economy you never dreamed possible.

SHOW INCREASE IN THE EARNINGS OF RAILWAYS

Ottawa.—Improvement in railway earnings, constantly mounting national revenues, and savings, through lowered interest rates on government borrowings, have combined to paint a much happier picture of more pleasant reading of the budget to be presented at the next session of parliament.

It had been estimated gross earnings of the Canadian National and Canadian Pacific for the current calendar year will show an improvement of \$30,000,000 over last year and that the net betterment of the Canadian National alone will be around \$9,000,000. That would bring the railway deficit down to around \$47,000,000 this year as compared with \$56,000,000 last year.

National revenues were shown, in figures published, to be some \$20,000,000 better for the first seven months of the fiscal year as compared with last year with the possibility that the improvement for the year will go to nearly \$50,000,000.

There has been some increase also in expenditures compared with the same period last year, because of additions to the National debt and increased obligations under the old age pensions scheme, but this advance has been in no way commensurate with the improved revenues, leaving it almost a certainty that there would be a surplus on ordinary account at the end of the fiscal year.

Canada Makes Greatest Recovery

Although Business Becomes Slightly Unsettled Over Election Talk
Toronto.—Officials of the Babson statistical organization at a "clients' conference" here declared Canada had made the greatest recovery from the depression of any country. It was noted that business had become slightly unsettled because of the election talk. Creighton J. Hill, director of the Babson Canadian department, predicted there would be no sweeping program of economic recovery in the Dominion, as Canada would continue to allow the United States to undertake large scale economic experiments.

Praises Churchill Elevator

Sea Captain Says Equipment Second To None In The World
Montreal.—Churchill has an elevator which for efficiency and equipment is second to none in the world, Captain Arnold Taylor stated here recently. Capt. Taylor is master of the S.S. Anna Dawson, which carried grain from the northern Manitoba seaport during the past summer. Russian enterprise, with its keenness to pick the brains of the rest of the world, had not equipped her most up-to-date ports with any grain elevators as good as that at Churchill, Captain Taylor said.

He paid special tribute to George Hill, resident engineer at Churchill. Saskatchewan Oil Field
Antigonish, N.S.—Dr. Donald F. MacDonald, associate professor of geology at St. Francis Xavier University and former United States government expert, has been granted leave of absence to report on a new discovery of oil in central Saskatchewan. He will leave shortly for the west, planning to return to the university within a month.

Printing Voters' Lists
Ottawa.—One of its biggest undertakings—the printing of voters' lists, comprising more than 6,000,000 names—will be commenced next month by the government printing bureau. There will be \$3,000,000 more if the names are re-arranged by consecutive street numbers, it was stated.

Retires After Long Service
Ottawa.—A long and distinguished career in the civil service of Canada was closed by the retirement on superannuation of R. W. Broadner, C.M.G., for many years commissioner of customs and for the past year tariff adviser to the department of finance. Mr. Broadner was born in Atholstan, Que., 49 years ago.

Set A Precedent
Amherstburg, Ont.—A Canadian girl, Miss Ethel L. Alexander, whose father, J. H. Alexander, is a prominent resident of Amherstburg, Ont., set a precedent when she became a member of a board of education in British Honduras.

W. N. O. 2073

Winnipeg Bread War

Chain Stores Are Blamed For Conditions In the Baking Industry
Winnipeg.—Blaming chain stores for conditions in the baking industry which have led to a "bread war" in Winnipeg, the Retail Merchants' Association submitted a brief to Premier John Bracken urging that immediate action be taken to remedy the situation.

Enforcement of rules and regulations now on statutes of labor and health departments, it contended, would do much to alleviate the bakers' troubles and enable independent bakers to remain in business.

The brief referred to an order-in-council passed in Alberta appointing a deputy minister to investigate the Alberta baking industry, and the fact bakers there have submitted a code for approval so they could come under the "Trades and Industries Act." The association charged chain stores would not permit retail chains to sell bread at the same prices as the chains quoted, and constantly undercut prices. As a result, wages in bakeries dropped until "men worked 14 and 16 hours daily for as little as \$10 a month. Quality of bread likewise suffered and in some instances was practically unfit for human consumption."

Bread prices in Winnipeg were as low as two loaves for five cents, and reports came from points in the district of drastic cuts in prices.

Arms Situation Difficult

Premier, MacDonald, Solve Problem

Southernport, Reg.—Prime Minister Ramsay MacDonald reiterated his conviction that the only way to solve the disarmament problem is to develop an international licensing system for manufacture of arms in a speech at Southampton.

In emphatic terms he expressed his adherence to the cause of peace while pointing out the difficulties confronting the government in dealing with the armaments question.

"The government was zealously pursuing a peace policy," he said, but the foreign secretary (Sir John Simon) had to sit around tables with peace-loving peoples, but with representatives who "do not share our views and have grievances."

"You can pipe but if they don't want to dance you cannot compel them," he said.

"We have got to accept armaments which I work day and night to diminish," he said, adding he would accept no defeat in his efforts to advance peace.

Identifies Meisner

John Labatt, London Brewer, Declares Meisner One Of Kidnappers
London, Ont.—John S. Labatt, London brewer, identified David Meisner as one of three men who kidnapped him on a lonely western Ontario road last August and held him for almost 60 hours before releasing him near Toronto.

Labatt was the first witness called at the preliminary hearing of Meisner conducted by Magistrate C. W. Hawkeshaw.

Meisner was committed for trial at the next assizes.

Considers Works Program

Cabinet Council In Session Attended To Routine Matters

Ottawa.—Meeting in two brief sessions, cabinet council devoted its attention to an accumulation of routine matters. At the close of the sittings, however, there was no matter on which an announcement was available.

Public works program was the main subject under consideration. Tenders for various works were gone over with a view to deciding the awarding of contracts.

Fog Cost Three Lives

Transportation Paralyzed In Some Sections Of United Kingdom

London.—A thick fog which cost three lives and spread generally throughout the United Kingdom, paralyzed transportation in some sections.

London and the area to the south were clear, but the country westward to Bristol and northward to Glasgow was thickly smothered.

A train killed two railway guards who were unloading race horses near Derby, while a motorcycleist died after a collision at Kettering. Six fishing vessels collided off Lowestoft and fog held ships at Liverpool, while the Caledonia from New York was forced to wait at Greenock before proceeding to Glasgow. Shipping in the Bristol channel, on the Mersey river and the River Clyde did not move and boats for Dublin and Belfast were held up.

Labor Legislation

Proposed Changes Approved By The Ontario Cabinet

Toronto.—Proposed labor legislation of Hon. A. W. Roebuck, Ontario attorney-general and minister of labor, has been approved by the cabinet and will be submitted to the caucus of Ontario Liberals here this week, Premier Mitchell F. Hepburn announced after a lengthy cabinet session.

The premier in announcing the cabinet's decision, insisted the legislation had been incorrectly termed "codes." He associated that name with price-fixing in the United States.

Ottawa's legislation has nothing to do with price-fixing, Mr. Hepburn stated, but is aimed to improve the social standard of the worker and combat cut-throat competition in industry. The element of compulsion will be absent.

TO PREPARE FOR VOTING ON THE SAAR QUESTION

Geneva.—With Europe's political atmosphere disturbed by reports German Nazis are planning to seize the Saar by force and French preparations to forestall any such move, the League of Nations council will meet Nov. 21 to consider arrangements for the Saar plebiscite.

Tension prevailing during recent weeks has lessened, however, during the past few days as result of statements by German authorities that no such move is being prepared and disclaimers by the French that they intend to send troops into the region.

(Residents of the rich Saar basin, governed since the treaty of Versailles by the league, vote Jan. 13 to remain under the league, go back to Germany or join France.)

German circles at Geneva expressed the belief the disarmament situation, insofar as Germany is concerned, may be clarified after the plebiscite, which, it is agreed here, will remove a serious problem from the continent's political life.

The Germans, however, insist there must be recognition of their right to equality in arms before they return to the disarmament conference. The council's chief task at its meeting here will be to devise ways of interpreting the will of the voters as expressed at the plebiscite.

There is no treaty provision which declares a majority vote of the inhabitants will decide the issue for France, it is believed juridically possible for the council to allocate these regions in accordance with the will of the voters.

NEW PREMIER OF FRANCE

Pierre Etienne Flandin, erstwhile Minister of Public Works, who succeeds "Papa" Doumergue as Prime Minister of France, Six-foot-six in height the new Premier needed only 16 hours to put together the pieces of the Cabinet wrecked by Edouard Herriot's radical Socialists.

Remains House Leader

Hon. George S. Henry Endorsed By Ontario Conservatives

Toronto.—Hon. George S. Henry, former premier, was endorsed as house leader for the Conservative opposition at the next legislature session by Conservative members in caucus here. The members recommended a provincial convention be called immediately after the session to consider party leadership and policy.

Karl K. Homuth, former Conservative member for South Waterloo, had called on Mr. Henry to resign and to summon a convention to choose a new leader. After the caucus, Mr. Homuth declared himself satisfied with the results and maintained he had "won the fight."

"I feel that the course I have taken was well worthwhile," Mr. Homuth said. "After the session is over the reorganization of the party as a whole can take place."

The members also recommended all Conservative candidates at the June 19 provincial election be summoned into conference with Mr. Henry and his legislature followers before the session convenes. The conference would be for the purpose of considering party questions and advice to members. Mr. Henry declared this would be done.

Naval Conversations

Britain Makes Attempt To Iron Out Some Of The Difficulties

London.—Reliable reports said Great Britain tried without success to induce the United States representatives at two-power naval conversations here to abandon their opposition to compromise proposals put forward by the British delegation.

A lengthy surprise conference at which the British delegates further explained their plan—which would, it is understood, grant Japan naval equality in name but not in fact—failed to shake the Americans' insistence on continuance of the basic principles of the Washington and London naval treaties.

The British representatives had asked for the meeting and in its course, it was learned, they asked many questions trying to get the United States delegates to offer substitute compromise proposals. All of these the Americans evaded.

Was War Nurse

Montreal.—Miss Harriet Edith Carman, one of the most distinguished of Canadian overseas nurses, died in hospital here after a brief illness. Miss Carman, who went overseas with the McGill hospital unit and served for nearly five years in military hospitals, being decorated for her services, was born in Winnipeg.

An Irish Republic

Says German Steamers Unloading Cargoes At Irish Ports

London.—"Within a very few months President Eamon de Valera will be in a position to declare an Irish republic—both de jure and de facto," declared John Morgan, professor of constitutional law at London University, at a meeting of Irish loyalists here.

The meeting passed a resolution calling on the British government to declare its intentions in regard to "repeated violations" of the Anglo-Irish treaty, outstanding of which is the non-payment of land annuities that led to the tariff war between Britain and the Irish Free State.

Prof. Morgan said "the so-called treaty" was legally dead. The Dublin legislature had abolished four of its most important clauses, embodying safeguards vital to maintenance of the British connection. He said loyalist friends in Ireland had told him that German steamers were unloading cargoes at Irish ports with the greatest secrecy, and he would leave his hearers to guess what those cargoes contained.

Farm Club Movement

Thirty-Two Teams To Compete At Royal Winter Fair

Toronto.—Thirty-two club teams of two members each will compete in livestock and field crop projects at the Royal Winter fair here this week. The competition is that of the national club contests, held in connection with the boys' and girls' farm club movement.

Only two girls are included in the teams coming to Toronto this year. They are Bernice Hornbrook, of the Sussex Poultry Club, Sussex, N.B., and Louise McDermott, of the Hazelridge Poultry Club, Hazelridge, Man.

WILL MEET TO PLAN CHANGE IN WHEAT QUOTA

London.—The ultimate fate of international efforts to regulate the export of wheat may be at stake when the international wheat advisory committee meets again at Budapest, Hungary, this week.

Although it is a committee meeting, representatives of all 21 signatories to the world wheat pact signed in London in August, 1933, are expected to be on hand.

The cardinal questions that will arise comprise the following: Extension of the wheat agreements from July 31, 1935 (when they formally expire) to July 31, 1937.

Provision for continuation of the efforts to adjust wheat supply to demand and thus dispose of the long-standing surplus.

Readjustments of the principle upon which wheat export quotas for the principal exporters are calculated. Subdivision of the wheat quota into quarterly periods, instead of one 12-month quota as at present.

The creation of a system of quota reserves designed to meet special contingencies, and impart greater flexibility to the working of the wheat agreement.

The proposed changes in the export quota system affect the working of the whole wheat agreement. Hitherto, the world demand for imported wheat and flour has been divided among the chief exporting countries, and their export quotas fixed accordingly.

The Argentine's exports during the first crop year of the pact, ending last July 31, exceeded her quota by nearly 40,000,000 bushels. She continued heavy shipments as a result of which fixing of quotas for the present crop year was deferred until the meeting next week instead of being settled in August.

It is to meet the possible recurrence of such a contingency, forced by higher production than estimated, that the system of quota reserves is proposed. The world demand for the present crop year ending next July is estimated at 800,000,000 bushels. Basic export quotas will, it is proposed, be again distributed on a pro rata basis.

But from the basic quotas, under the new plan, five per cent in each case would be set aside as a reserve. These would be utilized to meet the export needs of countries with more than average yields per acre as against countries with under-average yields.

It is hoped, furthermore, that institution of quarterly instead of annual quotas will tend to make the whole system of regulated exports more workable.

SURPLUS GRAIN SUPPLIES BEING SOLD TO U. S.

Winnipeg.—Sale of 600,000 bushels of low-grade Canadian wheat for animal feed in the United States was confirmed by Winnipeg grain exporters, marking a new development in disposal of Western Canada's surplus grain supplies.

The total shipment was estimated to be worth \$390,000 on Fort William basis, with the farmers receiving about \$250,000 when allowance for freight rates, commissions, etc., are made.

Previously, amber durum wheat had been purchased by United States interests for macaroni purposes as well as a limited amount of hard red spring wheat for bread making. The total of these grains exported to the United States since August 1, beginning of the new crop year, was estimated at 10,000,000 bushels.

The recent sales of low-grade wheat for animal feed were the first really to be negotiated although several inquiries had been made previously. Frost-damaged wheat from the prairies made up the shipments, with most of it coming from northern Saskatchewan points and the Peace River block in northern Alberta.

Cargoes.—Shipments of Alberta feed in large quantities to drought areas in the United States are expected to start as soon as prospective purchasers arrange a satisfactory rail rate.

Hon. George Hoadley, minister of trade and industry, stated here that all details of the sale to the United States purchasers had been arranged, and that negotiations with rail companies regarding freight rates were under way in the south.

War On Insect Pests

Will Continue Unceasing Fight On Wide Front

Ottawa.—Plans for the continuation of the unceasing war on insect pests on a front extending from the Atlantic to the Pacific will be thrashed out at a conference here on Nov. 26. The total of officers in charge of the Dominion government's entomological and field stations will gather here to review the work done in insect control in the past few years and discuss plans for the future.

The last conference of the kind was held seven years ago and the coming gathering is expected to have an important bearing on future policy. The officers who will come from various parts of Canada are those who have charge of the field work of the entomological branch of the department of agriculture and they will meet in various groups with the headquarters staff here.

Grasshopper control on the prairie provinces will be an important matter under discussion. The last few years have been difficult ones for the officials fighting the grasshoppers and preliminary reports from field officers indicate next year will find the "hoppers" again attacking western grain fields in large numbers.

Appoint Debt Boards

Boards For Saskatchewan And Alberta Are Set Up

Ottawa.—Provincial boards of review under the Farmers Creditors Arrangement Act were appointed by cabinet council for Alberta and Saskatchewan, but no announcement of their composition was available pending completion of the orders by the governor-general.

These boards, the duties of which will be to arrange composition of farmers' debts when official receivers find themselves unable to reach a compromise acceptable to both debtor and creditor, will be established in each province. They have now been practically completed for the three prairie provinces, where the work under the act has been heaviest.

Air Mail Plane Crash

Sydney, Australia.—Four persons, three members of the crew and one passenger, were killed when an Imperial Airways air mail plane crashed 20 miles from Long Beach, Queensland. Long Reach is approximately 300 miles northwest of Brisbane. The cause of the crash was not immediately known.

Majority Against Lottery Bill

London.—The government's betting and lottery bill, which forbids sale of tickets and publication of any news about lotteries and games of chance, was given third and final reading by the House of Commons. The vote was 206 to 28. The bill will now go to the house of lords.

Above is the architect's conception of the new Administration Building for the Dominion Experimental Farms, which is to be erected at the Central Experimental Farms at Ottawa.
